Now, a concrete grandstand does practically the same thing to the cover of a baseball that a strip of emery ball does when applied by Ford. Consequently almost every time a foul is knocked against a modern grandstand it becomes possible for the pitcher to pitch the "break emery ball" with that particular ball. The umpires, if you have noticed, carefully inspect every ball that comes back to them after it has been in contact with the stand. They are not looking for the trademark, as formerly, to guard against the substitution of phony or unofficial balls, but for any rough spot on the cover that might lead itself to the prohibited emery ball delivery.

received \$75,000 for matches in which he worked in Kansas City, Mo., during his career on the mat. This is more money than he received in any other city except Chicago.

#### Pitcher Urban Faber, who has been out of the game for the last six weeks with a severe attack of lumbago, has rejoined the White Sox.

but it is not likely that he will do much work on the present trip.

#### Baseball surely is a most uncertain proposition when one finds such

results.

#### Old Honus Wagner Threatens Service Record of the Veteran Cap Anson of Chicago Fame

Twenty years a star in the National league and starting on his twenty-first season. That's the record of Honus Wagner, the Honus of the Pittsburgh club.

Only two men in baseball history have done more years of baseball. Cap Anson was up there twenty-two years. Napoleon Lajoie was a star for twenty-one years. The return of the famous Pittsburgh player probably means that before he quite the diamond he will have equaled or perhaps eclipsed the stretches left by those other stars.

Wagner's record shows a greater total of hits and runs than ever was scored by another player. Cap Anson and Lajoie, with their longer careers, were behind him in these two columns.

The complete figures on Wagner since he began his work as a major leaguer with Louisville in 1897 follow:

| Year | Ab  | R   | H   | 2b | 3b | HR | SB | AV.  |
|------|-----|-----|-----|----|----|----|----|------|
| 1897 | 241 | 38  | 53  | 18 | 4  | 22 | 33 | 3.04 |
| 1898 | 301 | 40  | 180 | 10 | 10 | 23 | 33 | 3.04 |
| 1899 | 349 | 102 | 192 | 45 | 13 | 7  | 36 | 3.50 |
| 1900 | 328 | 107 | 201 | 44 | 20 | 4  | 36 | 3.80 |
| 1901 | 328 | 107 | 196 | 34 | 10 | 4  | 36 | 3.52 |

pitchers as Cheney and Smith of the Robins and Ragan and Allen of the Braves going through the first eight weeks of the season without turning in a victory.

Newark and Providence are having a merry time in their battle for first place in the international league. These teams are evenly matched and appear likely to fight it out for the pennant.

Grover Alexander was the first boxman in the major leagues to score ten victories this season. The Phils' star reached double figures when he upset the Cardinals recently.

Ford produced his emery ball by concealing a strip of emery ball against it and thereby produce a small rough spot on the cover. By proper use of that rough spot he was able to make the ball do exactly what he wanted it to do.

It was so easy that when the secret got out every one who could pitch a splitter masterly the emery ball in no time. It had to be barred to save batting averages from sinking below the horizon.

## RED CROSS SECURES GENEROUS DONATION TO START CAMPAIGN

PRESIDENT H. S. LOVEJOY OF LO-  
CAL CHAPTER PLEDGES SUM  
EQUAL TO 50% OF FOUR  
LARGEST GIFTS.

## WILL COVER THE CITY

Many Committees Named to Cover  
Every District in Janesville.—  
Would Solicit Every  
Citizen.

As a starter for the drive of the American Red Cross to raise \$14,000 as Janesville's share in the \$100,000,000 nation wide campaign for war funds, H. S. Lovejoy, president of the local chapter, has agreed to give a sum equal to fifty per cent of the four largest donations. In pledging this amount, Mr. Lovejoy said simply, "I am in such close touch with the Red Cross work and the great need of the hour that I believe my money can do more good in this cause than in any other way."

With this generous offer as an incentive, the many canvassers appointed to go out this morning to start today started the work of soliciting throughout the city. Though Mr. Nolan declined to make any definite statement as to the results of his canvass, he declared the outlook to be most encouraging. It is the hope of the executive committee that four donations of five hundred dollars each may be secured, thus making with Mr. Lovejoy's contribution a total of three thousand dollars as a starter.

Members of the executive committee spent a large part of the day in making personal appeals to people from whom are expected contributions of considerable size, and in organizing the work for the hundred or more canvassers who are to be secured to carry on the campaign. In the large manufacturing concerns a committee will be organized to canvass among the employees. In the special "volunteer" committees composed of men who are well known among the members of their particular trade or profession will solicit those classes. No individual in the city will be missed. Besides all these special committees, solicitors will go out late this afternoon carrying names taken from the telephone directories.

With an apportionment of \$14,000, or approximately one dollar per capita for the city's population, and with the hope of securing \$28,000, it is estimated that there will be about six thousand individual contributors to the cause whose donations must average in the neighborhood of two dollars each to make the total. The large donations are expected to help most materially and to give an impetus to the campaign, but to the small donors the campaign is equally important. The campaign will be turned for the greatest results.

Janesville has as a spur the activity of Edgerton, which on the first day reported a total of \$2,000. An apportionment of but \$3,000. Edgerton has thirteen teams in the field, and has sent a hurry call for more publicity material with which to carry on the drive. Chicago is well started on their drive and expects to solicit from at least five hundred people in that vicinity. Rock prairie shows similar activity.

The executive committee met at three o'clock this afternoon and the members of the various campaign teams at four o'clock where they outlined the work for the week and the entire city organized among the workers for the fight.

Thomas Birmingham has been named head of a committee at the Janesville Machine Company. Peter Hamarlund and Judge H. L. Maxfield have also been appointed as committee chairmen. Campaign headquarters will be located at the Commercial Club office during the remainder of the campaign.

"Hundreds of times during the week," said one worker today, "objection to the appeal of the Red Cross will be made on the ground that I have just bought so many Liberty Bonds, I have contributed so much here and so much there, taxes are very high, and the cost of living is growing."

"It is not a question of giving. Neither is it a question of charity. It is a question of duty. Duty to the country and to the principles for which we thrive. It is sacrifice alone and not inconvenience that is going to preserve this country and those principles so close to the hearts of all true Americans. We are going to sacrifice our money now or both our money and national honor—which is our all and—later on."

"The motto of the Red Cross in war is the holiest and most divine possible to man. The care of our soldiers, broken, weary and exhausted; the restoration of the devastated Belgium and northern France. The aid of our boys at the front; in what more noble purpose can our money be employed than in this ministry of mercy?"

MacLaurin before an audience at the MacDowell club concert last evening. "Our boys will be at the front not by the hundreds or the thousands, but by the millions. Unless the German people rise against the perfidious traitors of the base kaiser and his still more vile viceroy prince, the Red Cross must make its appeal which will be but a beginning. There is no doubt but what America will rise to the need in this crisis and she has done so in every national emergency. England has given twenty-three billions of dollars, and we are far richer than England. France has spent sixteen billions and has been at the front since the young men of America must realize it is at war, that it is fighting for its very life; that if the allies lose, democracy will be dead for a hundred years; that the world will be dominated and controlled by a power whose very doctrine of existence is that might makes right. We must help."

## FREIGHT RATES ARE LOWERED BY RULING IN RAIL RATE CASE

Commercial Club Hears Report on  
Decision of Inter-State Com-  
merce Commission.

Reduction in all class rates on freight between this city and trunk line cities of the east and points in the Central Freight Association has been effected by the decision recently handed down by the Inter-State Commerce Commission in the celebrated Winona Rate Case. The case arose out of a protest of certain cities, known officially in the case as the "Southern Wisconsin Cities" and being Janesville, Beloit, Madison and La Crosse, over the exorbitant rates charged between these cities and eastern points.

The decision effects a reduction in rates between Janesville, New York, Boston and other eastern trunk line cities, as well as between the cities in the territory lying east of the Ohio river and west of a line connecting Buffalo and Pittsburgh.

For the trunk line territory the Commission decided that class rates between New York and Janesville should be reduced to the rate of June, 1896, of the New York, Chicago and New York-Milwaukee rate. The rates which have prevailed here before were 115% larger than the rates which were calculated on no percentage basis, but were obtained by an addition of the local rate to the New York-Chicago rate.

Interesting and instructive features displayed in "Wonderland" for visitors.

Perhaps many have visited a "Wonderland" in some of the large cities, but never before have the people of Janesville had the opportunity to visit a "Wonderland" here in their own city. The Wortham shows may easily be called a "Wonderland." The great "White Way," illuminated with thousands of electric lights, making it much brighter than any of our most prominent streets, and bordered with hundreds of beautiful scenes carrying a person from the midst of the tropical jungles to the high life on old Broadway.

A person wishing to see the sights from on high, can go up in the ferris

or all except the few who are thoroughly familiar with the musical situation in Janesville, last night's concert given by the MacDowell club in the First Congregational church was a series of revelations. Utterly lacking in all the amateurishness usually characterizing affairs of the sort, the program ran through a diverse series of numbers, all pleasingly executed, giving full expression to all the versatility found in the club. Perhaps the most outstanding feature of the recital was the evidence of conscientious preparation which the many difficult ensemble numbers bore. That Janesville can be proud of her musicians is a fact that needed no further proof, but that as beautiful and as perfectly played group music could be given by such a young organization is a testimony of what the city owes to the MacDowell club in bringing together and presenting to the public's pleasure a concert such as the one rendered last evening before several hundred people.

The work of the chorus of twelve voices in the Peer Gynt was exceptionally charming, and bespoke a training seldom found in amateur circles. The program from beginning to end was above criticism except of the most laudable kind, while the several difficult group numbers, the choruses, the number by the string quartet, and the playing of Mrs. Hoon, Mrs. Wilcox, Miss Bennett and Miss Murphy in the double piano duets could be only a delight to the most hypercritical.

In the neighborhood of thirty-five dollars was taken in by the club in the silver collection, a sum which will be used to defray the slight expenses incurred by the concert and to advance the work of the club in preparing an even broader field of activity for the next season.

The program follows in full:  
Waltz (for two pianos), Noszkowski  
Meadames Mout and Hoon, Misses Bennett and Murphy.  
Organ Solo—Finale to Sonata Op. 42—Miss Ada Pond.

wheel. This may prove a good test for those anticipating an entering the aerial branch of the service. The whip, a new feature, will prove a good cure for the blues.

The shows are of a high class nature and mixed order, taking in first class acrobats, equal to those seen in some of the largest circuses on the road, musical entertainers, etc. Not only are the various entertainments amusing, but they are also instructive and scenic. A trip through the Panama Canal and a lecture on it, showing the course of the canal, now the boats are raised and lowered from sea level to the level with Gatun lake is most instructive.

Jack Richardson, who makes his first appearance in the heavy part opposite Louise Glaum in "Love or Justice," is one of the authentic veterans of the silent drama.

It is more than six years since Richardson began work before the camera. Previous to that he filled a minor role in "The Royal Chef," a musical comedy, and had played a variety of parts with various stock organizations.

Figuring his connections with the Selig, Bison, American and now with the Triangle forces, Richardson has appeared in about 325 pictures. In nearly every play he has taken the heavy part, and has the reputation of having been killed in the films more frequently than any other villain in captivity.

Not long ago Richardson won a valuable diamond trophy in a contest held by one of the magazines to decide the screen's most popular heavy, polling more than 90,000 votes.

The new bad man stands a trifle less than six feet in height, and weighs 190 pounds. Off the screen he is the liveliest of companions and never frowns except on a straight salary basis.

## FORTY YEARS AGO

The Janesville Daily Gazette, June 19, 1877.—The gypsies left the city today, going in the direction of Madison. They imposed on the credulity of women to a great extent, and made considerable money in "telling fortunes."

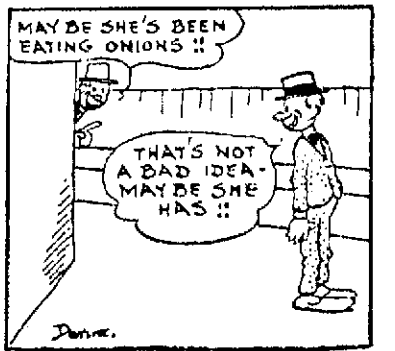

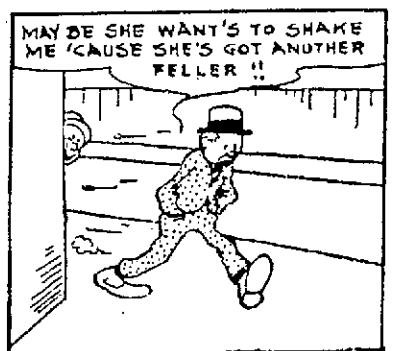

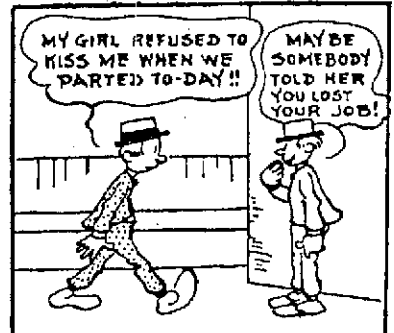

A singular case is being heard before Justice Patton this afternoon—a woman charged with severely beating a four year old child of Frank Banning. At this writing the case is not disposed of.

We notice in the dispatches from St. Louis regarding the Illinois editorial excursion party, that Mr. Chas. Holt, formerly of this city and now of Kankakee, was badly overcome by the heat at St. Louis and demanded medical treatment.

The Minneapolis club will play a game with the Mutuels in this city on Saturday afternoon next. Considering the close contest between this club and the Mutuels at Minneapolis in May last, the game on Saturday will be an interesting one.

Two young men in the city who have an eye on the law, have had warrants issued against them on the charge of "taking" an umbrella. If the proceedings were instituted against every one who has taken an umbrella and never returned it, the entire adult male population would be under arrest. The afternoon the young men were taken before Justice Patton for examination. It promises to be an interesting item. On a table in the court room lay something less than forty umbrellas, and more were to be brought in.

BADGER LABOR BODY PLANS ENTIRE STATE OBSERVEE LABOR DAY

Ashland, Wis., June 19.—Plans for statewide observance of Labor day will be discussed at the annual state convention of the Wisconsin Federation of Labor, which convenes here a month from today.

Whether the war will forego a celebration is a question of importance. It is believed by some that the need of laborers at their posts because of necessity for increased production in war time will be sufficient cause for cancellation of the annual observance of the day, which favors a greater observance of the day than ordinarily.

## HOLWAY FIGURES OUT WISCONSIN'S QUOTA UNDER FIRST DRAFT

Madison, Wis., June 19.—Counties already having an enlistment in the regular army since April 1 in excess of the allotment under the draft will not be compelled to furnish additional recruits under the draft. This was the statement of Adjutant General Orlando Holway today. There are a number of counties in the state, which already have furnished more men than would be required under the draft.

Wisconsin's quota under the draft is 33,290. This is the quota to fill up the army, the national guard and the first draft of 500,000 men. The first draft to be made by the national government will be to fill up the army and the national guard. It is not expected that this draft will hit Wisconsin as this state will already have subscribed a full quota under the national guard when completed. When the national guard enlistment is completed, Wisconsin will have 21,500 men which includes the six regiments, cavalry and other organizations. When you add to Wisconsin's quota of 33,290 the national guard and the regular army, the total is not considered in this call at all. The counties that will not have to furnish men under the first draft, according to Adjutant General Holway, because these counties have already furnished sufficient men for their military organization to make up the number required under the first draft are: Ashland, Forest, Green, Polk and Sawyer.

The following additional men to those already enlisted must be furnished in the following counties: Adams, 120; Barron, 175; Bayfield, 60; Brown, 500; Buffalo, 210; Burnett, 130; Calumet, 70; Chippewa, 200; Clark, 270; Columbia, 270; Crawford, 210; Dane, 540; Dodge, 510; Door, 120; Douglas, 400; Dunn, 100; Eau Claire, 200; Florence, 50; Fond du Lac, 370; Grant, 370; Green Lake, 60; Iowa, 300; Iron, 120; Jackson, 70; Jefferson, 150; Juneau, 110; Kenosha, 350; Kewaunee, 170; La Crosse, 470; La Fayette, 250; Langlade, 60; Lincoln, 50; Manitowish, 450; Marathon, 550; Marinette, 210; Marquette, 140; Milwaukee, 3,100; Monroe, 80; Oconto, 190; Oneida, 50; Outagamie, 330; Ozaukee, 70; Pierce, 140; Polk, 290; Portage, 255; Price, 60; Racine, 250; Richland, 350; Rock, 400; Rusk, 350; St. Croix, 210; Sauk, 140; Shawano, 270; Sheboygan, 520; Taylor, 200; Trempealeau, 300; Vernon, 310; Vilas, 100; Walworth, 150; Washburn, 90; Washington, 170; Waushara, 270; Waupaca, 290; Waubesa, 250; Winnebago, 350 and Wood 170.

If General Holway's estimates are correct it will mean that one in every twelve of the draft age in Rock county will be called out. This will take 190 men from Janesville and 190 from Beloit. From seven to twelve men will be called from every township.

GIVE WAGE OF AN HOUR TO RED CROSS, SAYS JUDD

Kenosha, Wis., June 19.—A plan whereby every working man would give one hour's pay to the Red Cross is the suggestion of Clark S. Judd. This being Red Cross week, the plan has attracted favor in many other cities.

In Kenosha alone it is estimated that \$5,000 would be raised in this manner. One hour's pay seems an inconsiderable amount. It is pointed out that the plan would raise hundreds of thousands for the Red Cross if adopted throughout the state.
